Schindler

Elevated designs

Schindler's new interior and user interface designs are a **carefully curated** selection of modern aesthetics and cutting-edge technology, embracing the latest trends to **unleash your creative vision.**

compatible
with every

architectural trend

Natural nuances

Embracing the raw beauty of nature and its subtle intricacies.

Accent colour

Add a pop of personality and liveliness to any space with statement colours.

Tone on tone

Enjoy a sense of unity and balance, exuding a timeless and understated charm.

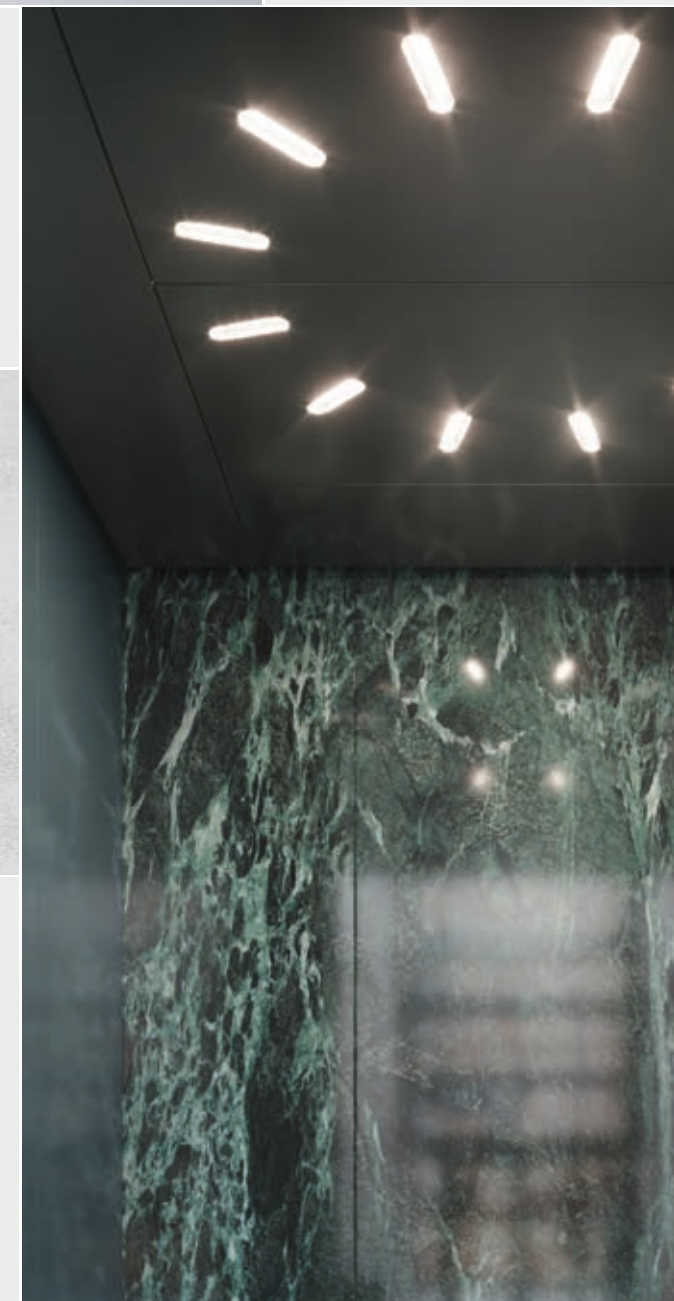

Architectural elegance

Transform spaces into visually inspiring and memorable environments.

Digital spaces

Blurring the lines between the physical and digital to create cutting-edge spaces and engaging user experiences.

Natural nuances

Subtle, sublime, serene

This colour palette draws inspiration from earthy tones, reflecting the hues found in forests, mountains, and meadows. Create a sense of grounding and authenticity with these refined and simple laminates.

These colours aim to bring the serenity of the natural world indoors, fostering a peaceful and rejuvenating environment.

User interface: Primea 500
Lighting: Dash Array
Ceiling: Polar White
Side walls: Almond Beige
Rear wall: Almond Beige
Floor: Maple Wood Ceramic

Tone on tone

Elegant, unique, impactful

Discovering the understated elegance and refined simplicity of monochromatic colour schemes. Use varying shades and tones of a single color to create a harmonious and sophisticated aesthetic. The absence of contrasting colours allows the focus to shift towards texture, pattern, and materials, emphasising their unique qualities.

By playing with light and dark nuances within the same colour family, the designs achieve a subtle yet impactful visual effect.

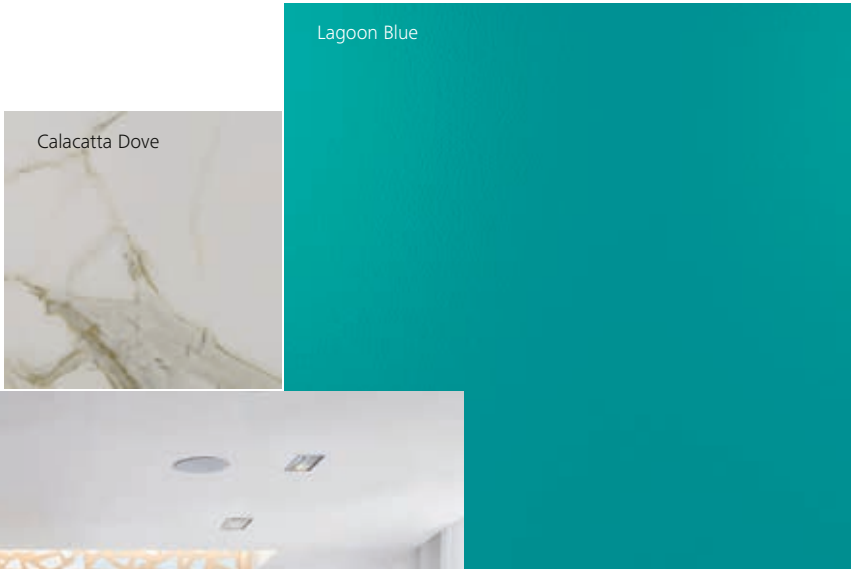

User interface: Primea 500
Lighting: Indirect
Ceiling: Carbon Brushed Steel
Rear Wall: Olive Green Twill
Side walls: Sage Green Glossy
Floor: Meteorite Grey Artificial Granite

Accent colour

Bold, dynamic, exciting

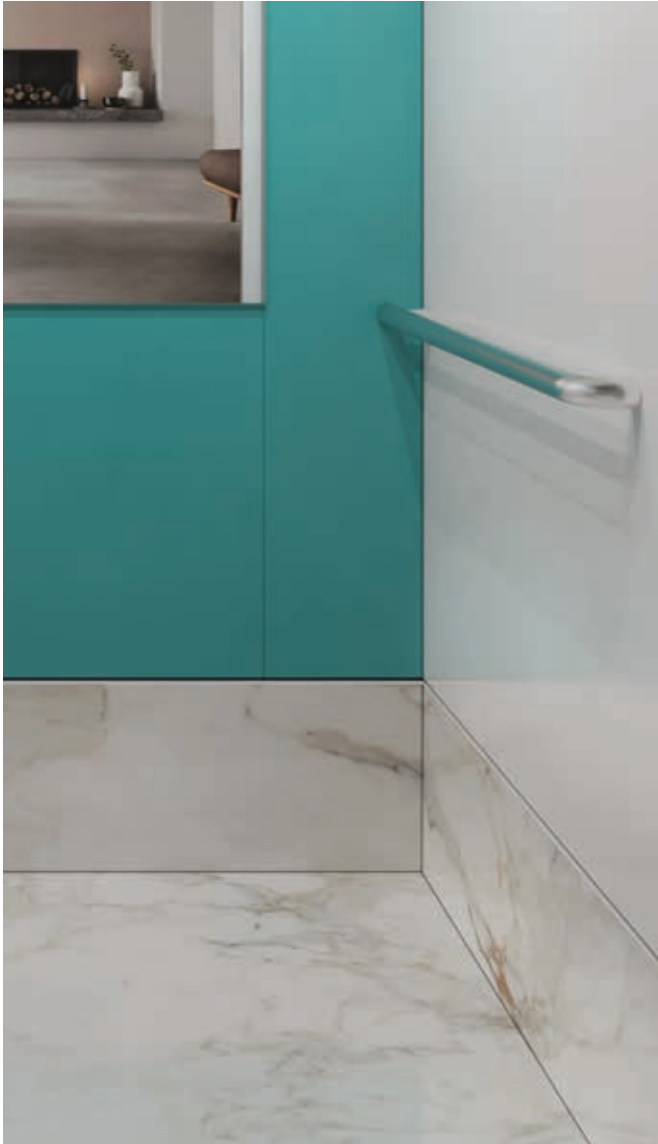

Choose from a palette of vibrant and contrasting hues to add visual interest and depth to a space. With a predominantly neutral or monochromatic colour palette, one bold and dynamic colour pops as the focal point. The contrast between the neutral tones and the vibrant accent colour creates a sense of drama and excitement, while also allowing for easy customisation and versatility.

This accent colour is strategically incorporated through walls, decor pieces or architectural details, creating a focal point that draws the eye and infuses energy into the design.

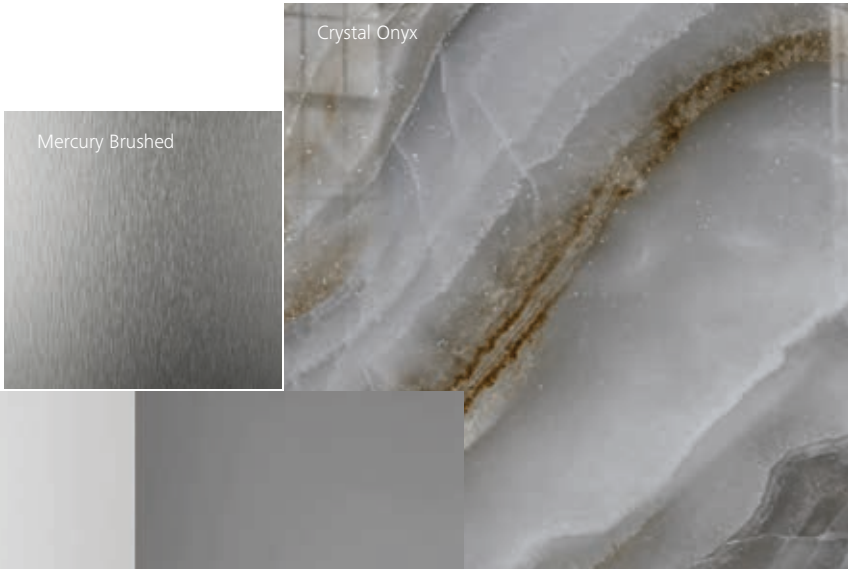

User interface: Primea 500
Lighting: Cube spots
Ceiling: Polar White
Rear wall: Lagoon Blue
Side walls: Pearl White Glossy
Floor: Calacatta Dove Ceramic

Architectural elegance

Grace, beauty, refinement

Celebrating the beauty and impact of unique architectural elements. This theme highlights the intricate details, structural forms, and decorative features that define a building's character. From ornate columns and arches to sleek modern lines and dramatic facades, these design elements aim to showcase the artistry and craftsmanship behind architectural design.

The theme embraces both historical and contemporary styles, incorporating a variety of materials, textures, and finishes to create visually striking and captivating spaces.

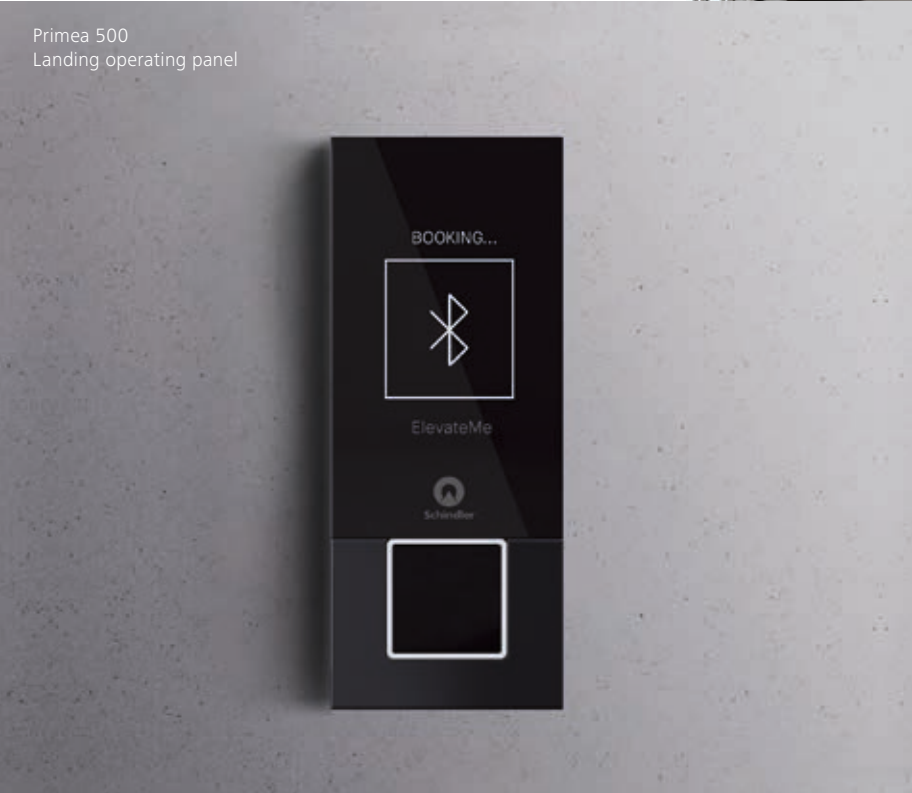

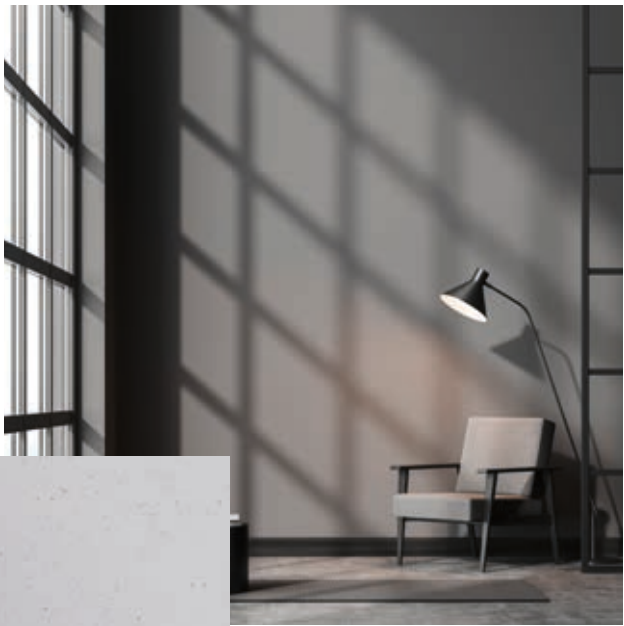

User interface: Primea 500
Lighting: Edge
Ceiling: Mercury Brushed Steel
Side walls: Shadow Grey Glossy
Rear wall: Crystal Onyx Ceramic
Floor: Specked Black Rubber

Digital spaces

Intuitive, interactive, adaptable

Revealing the immersive and dynamic nature of the virtual world. This theme embraces the integration of technology and design to create interactive and engaging environments. These spaces often feature sleek and futuristic aesthetics, with clean lines, minimalistic forms, and high-tech materials.

The theme focuses on incorporating interactive elements such as customisable screens and smart devices to enhance the user experience. The design also emphasises connectivity and adaptability to accommodate the ever-evolving nature of digital technology and demands for user personalisation.

Phygital spaces provide a platform for creativity and innovation, merging the physical and digital world to create captivating and cutting-edge environments. Our user interfaces are compliant with relevant EU accessibility standards, ensuring mobility for all.

User interface: Primea 500
Lighting: Rail
Ceiling: Polar White
Side walls: Pear White Glossy
Rear wall: Carbon Brushed Steel
Floor: Graphite Black Ceramic

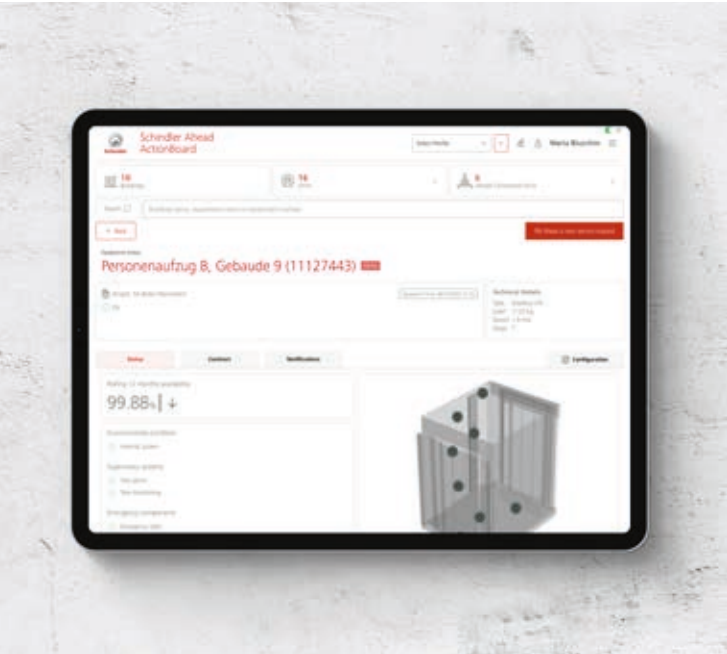

Schindler ActionBoard enhanced

Introducing an intuitive infotainment service for building managers

Enhance your Schindler service with Schindler ActionBoard. New functions allow you to provide weather updates, share meaningful building information, and help guide passengers to their destination - all managed easily through an online platform. Contact your Schindler sales expert to learn about the full potential of the Schindler ActionBoard and the necessary requirements.

Personalised Elevator Experiences

Seamlessly manage access control for tenants and guests to improve security within the building. Both card reader and keyswitch solutions are available to help securely move passengers through the building.

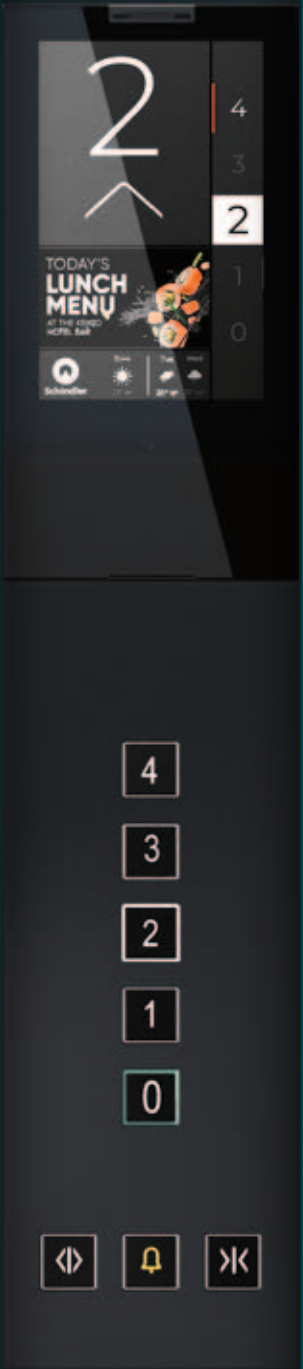

Measure and monitor your elevator on the go

Remotely access digital elevator status checks, regularly track your maintenance schedule, and view up-to-date energy consumption levels.

Easy building communication

Simplify communication within your building by sharing content directly through the Primea 500 user interface. Floor information can also be modified quickly. All easily managed via the ActionBoard platform for authorised users.

Car Operating Panel

Schindler ElevateMe application

Enabling passengers to personalise their elevator experience

Enhance your Schindler service contract with the Schindler ElevateMe application that enables elevator passengers to control, interact, and personalise their journey via smartphone. Simply call the elevator using the QR code or Bluetooth connection from the entrance or any nearby location, and select the destination, allowing greater convenience and reduced waiting time. Or, set default floors, door opening times, or VIP service to personalise your trip.

Adapted door opening times

Effortlessly control door opening times to conveniently accommodate wheelchair passengers, pushchairs, pets, large groups, or bulk items.

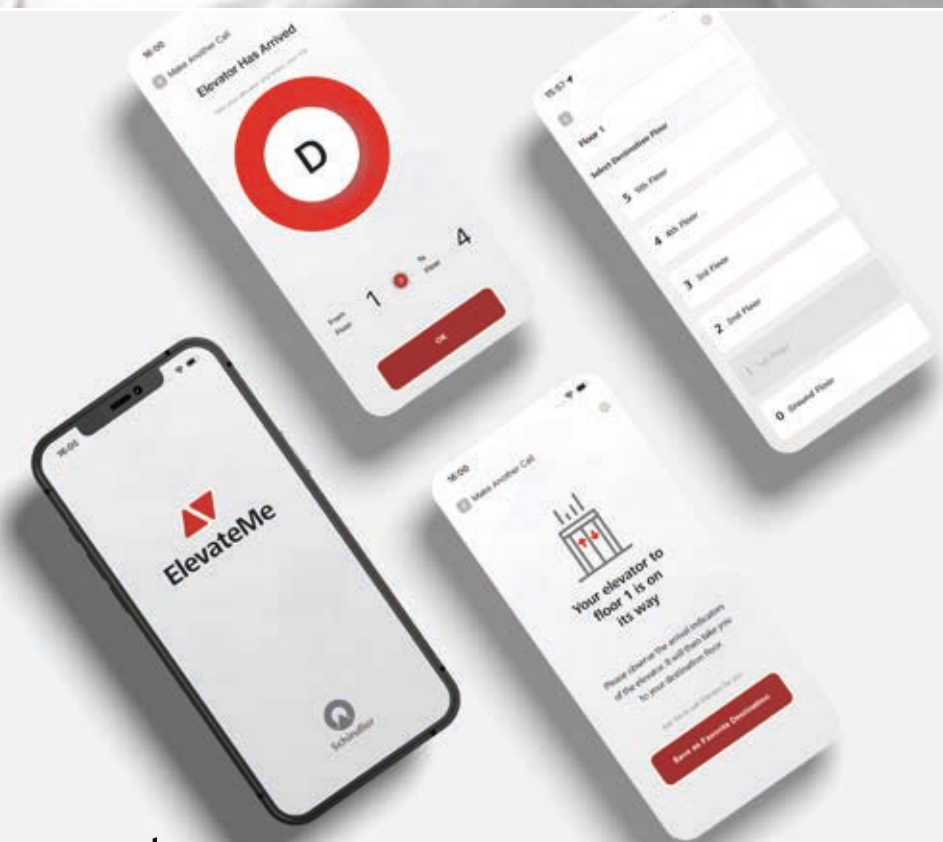

Customisable travel modes

New revolutionary operating modes enable users to individualise their journey. Options like Exclusive trip allow passengers to travel to their destination without disruption.

Guest security to elevate your event with VIP access

Efficiently send personalised invitations to select individuals with guest-only elevator privileges, ensuring a seamless experience for all.
